DETAILED ACTION

Status of the claims: Claims 1-22 are currently pending.

Priority: This application is a 371 of PCT/EP04/51625 (07/27/2004) and claims priority to EUROPEAN PATENT OFFICE (EPO) 03102313.8 (07/28/2003).

IDS: The IDS dated 4/28/06 was considered.

Election/Restrictions

1. Applicant's election with traverse of Group I (claims 1-11 and 21) in the reply filed on 7/15/2008 is acknowledged. The traversal is on the ground(s) that the technical feature linking the claims is a contribution over the prior art. This is not found persuasive because as detailed in the following rejection, the claims are anticipated by the prior art.

The requirement is still deemed proper and is therefore made FINAL.

Applicant also elected the following species (allegedly reading on claims 1, 2, 4, 5, 7, 8, 11, and 21):

Because the generic claim was not found patentable, the claims are restricted to the elected species only and the remaining subject matter held withdrawn. Accordingly, claims 3, 6, 9, and 10 are withdrawn in their entirety and claims 1, 2, 4, 5, 7, 8, 11, and 21 withdrawn in part.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 5, 11, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5750712.

The prior art teaches the following compounds which anticipate the claims:

And

compositions thereof.

. In addition, the prior art teaches

Claim Objections

The pending claims are objected for reading on non-elected subject matter as a result of the restriction to the elected species **ONLY**.

Conclusion

The claims are not in condition for allowance.
